Driven and highly analytical Informatics graduate with a 3.71 GPA. Equipped with a solid foundation in software programming (Java, Kotlin, Python). Proven ability to thrive in fast paced environments and quickly learn new technologies through enterprise level system QA at Telkom Indonesia and software development at Bangkit Academy. A collaborative team player with excellent written and verbal communication skills, ready to solve complex problems and deliver robust IT solutions.

Work Experiences

Telkom Indonesia - Jakarta (Onsite)

Feb 2025 - Jul 2025

System Quality Assurance at Cyber Security Dept

- Conducted validation and re-testing of 94 bug fixes to ensure successful issue resolution and maintain long-term system stability.
- Identified 40+ functional and UI issues during system evaluation and proposed 19 usability improvements, including form validation enhancements to improve data integrity.
- Configured API traffic monitoring for system endpoints to ensure the reliability and security of data exchange between platforms.
- Designed a risk scoring framework using heatmap visualization to quantify the impact of system changes on business operations.

Laboratorium Terpadu Informatika UII

Sep 2024 - Jan 2025

Mobile App Development Laboratory Assistant

- Mentored students in mobile development fundamentals (Kotlin, Flutter, Firebase, API integration, and SOLID principles) through hands-on projects and a semester-long curriculum.
- Assisted in delivering technical guidance and troubleshooting, strengthening communication and training skills relevant to user awareness and technical support.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

Feb 2024 - Jul 2024

Mobile Development Cohort

- Acted as an Android Developer, integrating Machine Learning models and cloud-based APIs to provide personalized, data-driven recommendations within the app.
- Collaborated in a multidisciplinary team with Machine Learning and Cloud Computing cohorts to develop "BuahHati," an innovative Android application for child growth monitoring.
- Leveraged Gemini AI for rapid prototyping and iterative development
- Managed the application development lifecycle from ideation to implementation, focusing on clean code practices and system reliability.

Education Level

Universitas Islam Indonesia

Sep 2021 - Jan 2026

Bachelor of Informatics, 3.71/4.00

- Informatics graduate from Universitas Islam Indonesia. Research focused on Mobile-Assisted Language Learning (MALL) applications, resulting in publications in Scopus and Sinta indexed international journals.

Organisational Experience

Porsematik 2022

Jun 2022 - Dec 2022

Koordinator Komisi C

- Led a 5-member team managing finances for both the Steering Committee and Organizing Committee.
- Planned budgeting, monitored cash flow, and ensured proper financial documentation and accountability.

Skills, Achievements & Certifications

- **Hard Skills:** • Software Development & Programming (Java, Python, Kotlin, Dart/Flutter) • Agile & SDLC Methodologies • System Testing & Quality Assurance (QA) • Analytical Problem Solving • Enterprise API Monitoring • Cross-Functional Collaboration & Communication • IT Risk Management
- **Certification - Language Proficiency**  (2025): Successfully achieved a score of 557 on the CEPT test with a B2 (Upper Intermediate) category on the CEFR guidelines.
- **Certification - The GRC Approach to Managing Cybersecurity**  (2026)
- **Certification - ISO 27001: Information Security Associate**  (2025)
- **Certification - Cisco - End Point Security**  (2023)
- **Certification - Cisco - Cyber Threat Management**  (2023)
- **Achievement - Top 50 Finalists HackFest 2023 by GDSC Indonesia** (2023)
